

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Practice Makes Perfect

COWAN AND LOKER'S

Exercises in Business Practice

Present the ordinary business forms and the simplest methods of bookkeeping. They combine textbook methods and materials with exercises in pad form.

POWERS AND LOKER'S

Practical Exercises in Rapid Calculation

Present the fundamentals of arithmetic, with their commercial applications, chiefly with a view to speed and accuracy. Primarily for supplementary use and drills.

Understands the Pupils' Troubles

***The Following Letter Shows One of the
Reasons Why Teachers Like This Book***

November 18, 1921.

TAFT SCHOOL,
Watertown, Conn.

I am using the **SOMERVILLE'S ELEMENTARY ALGEBRA** Revised in my class this year for the first time and it is working out wonderfully well. The selection of problems is especially fine. The author seems to know unerringly the things that give the students trouble, and has arranged the problems so as to clear up their difficulties.
